## Principals and Vice-Principals

This bibliography lists material published on principals and vice-principals since the first bibliography on this topic (Bibliography No. 32) was published in February 1973. It is planned to issue from time to time updated bibliographies in various subjects which have already been covered in the series, but in which interest remains strong.

Sources consulted in preparing this bibliography include the Bibliographie du Québec, British Education Index (The Library Association), the Canadian Education Index, (CCRE), the Cumulative Book Index (Wilson's), the Current Index to Journals in Education (CCM), the Directory of Education Studies in Canada (CEA), the Education Index (Wilson's), Resources in Education (ERIC), Research Studies in Education (Phi Delta Kappa) and the Subject Guide to Canadian Books in Print.

Abstracts of material with an ED number may be found in Resources in Education (formerly Research in Education). If marked "Available ERIC", hard copy or microfiche copies may be purchased through the Education Document Repoduction service of the ERIC system.

Material held in the CTF Library is marked with a single asterisk. The Library is also purchasing microfiche copies of the ERIC documents available. A double asterisk appears beside these titles, indicating the material is available on loan in microform only.
